

WORKPLACE, HEALTH, SAFETY

Settlers Farm OSHC is committed to providing safe and healthy workplaces and to eliminating conditions and incidents that could result in personal injury or ill health to educators, children, families or visitors. We are committed to consulting with educators on WH&S Injury Management issues, enabling each educator to contribute to decisions that may affect their health, safety and welfare at work.

Procedure:

- Information about the Workplace Health & Safety Act, Regulations, and Codes of practice, guidelines and the departmental OHS&W Manual are held at the service, or on the school site, and will be made available to educators, management committee members and parents.
- Employee and employer obligations in regard to WH&S are discussed with new educators and committee members as part of their induction. They are included in educator and committee handbooks. Refresher courses are conducted as required.
- Educators are encouraged to report incidents which lead to high stress levels to the Director. Positive steps will be taken to understand and minimise stress suffered by individual educators.
- Educators, parents/caregivers and children will have access to current information provided by relevant government authorities on how to minimise health and safety risks to educators and children.
- Visitors to the site must sign in and observe the service’s WH&S obligations.
- Staff must use the appropriate method to report hazards, accidents, injuries and near misses (*see appendix 33*).
